

June 8, 2010

Members of the United States Senate
United States Senate
Washington, D.C. 20510

Dear Senator:

The trade associations listed below write to ask you to support Senator Murkowski's greenhouse gas (GHG) "endangerment" resolution – S.J. Res 26. The measure will prevent EPA from establishing a *de facto* new national energy policy via regulation under the Clean Air Act (CAA). We also urge you to reject any measures to codify EPA regulation of GHGs under the CAA through legislatively affirming EPA's "tailoring" rule or another similar measure.

While our organizations may differ on some subjects with respect to approaches towards climate change, we are united in opposition to unilateral EPA action to regulate GHGs under the CAA. We urge you to support the bipartisan S.J. Res. 26 and reject any attempt to codify EPA's "tailoring" rule into law.

In advance, thank you for your attention to this request.
